

Diversified Well Logging's Core Values

Giving guidance to our actions, and defining who we are.

Customer

Team

Safety

Quality

Learning

We are CUSTOMER Focused:

We seek to exceed customer expectations. When the customer asks, we say 'yes.' We may not have the answers right away, but we find them and we deliver.

TEAMWORK and Mutual Respect:

We work to a common goal. Our company is comprised of people with different backgrounds and perspectives. The different insights help to paint a complete picture. Everyone on the team works toward the same goal, and through our willingness to listen we can bring out the best ideas to meet our customers' goals.

We have a strong commitment to SAFETY:

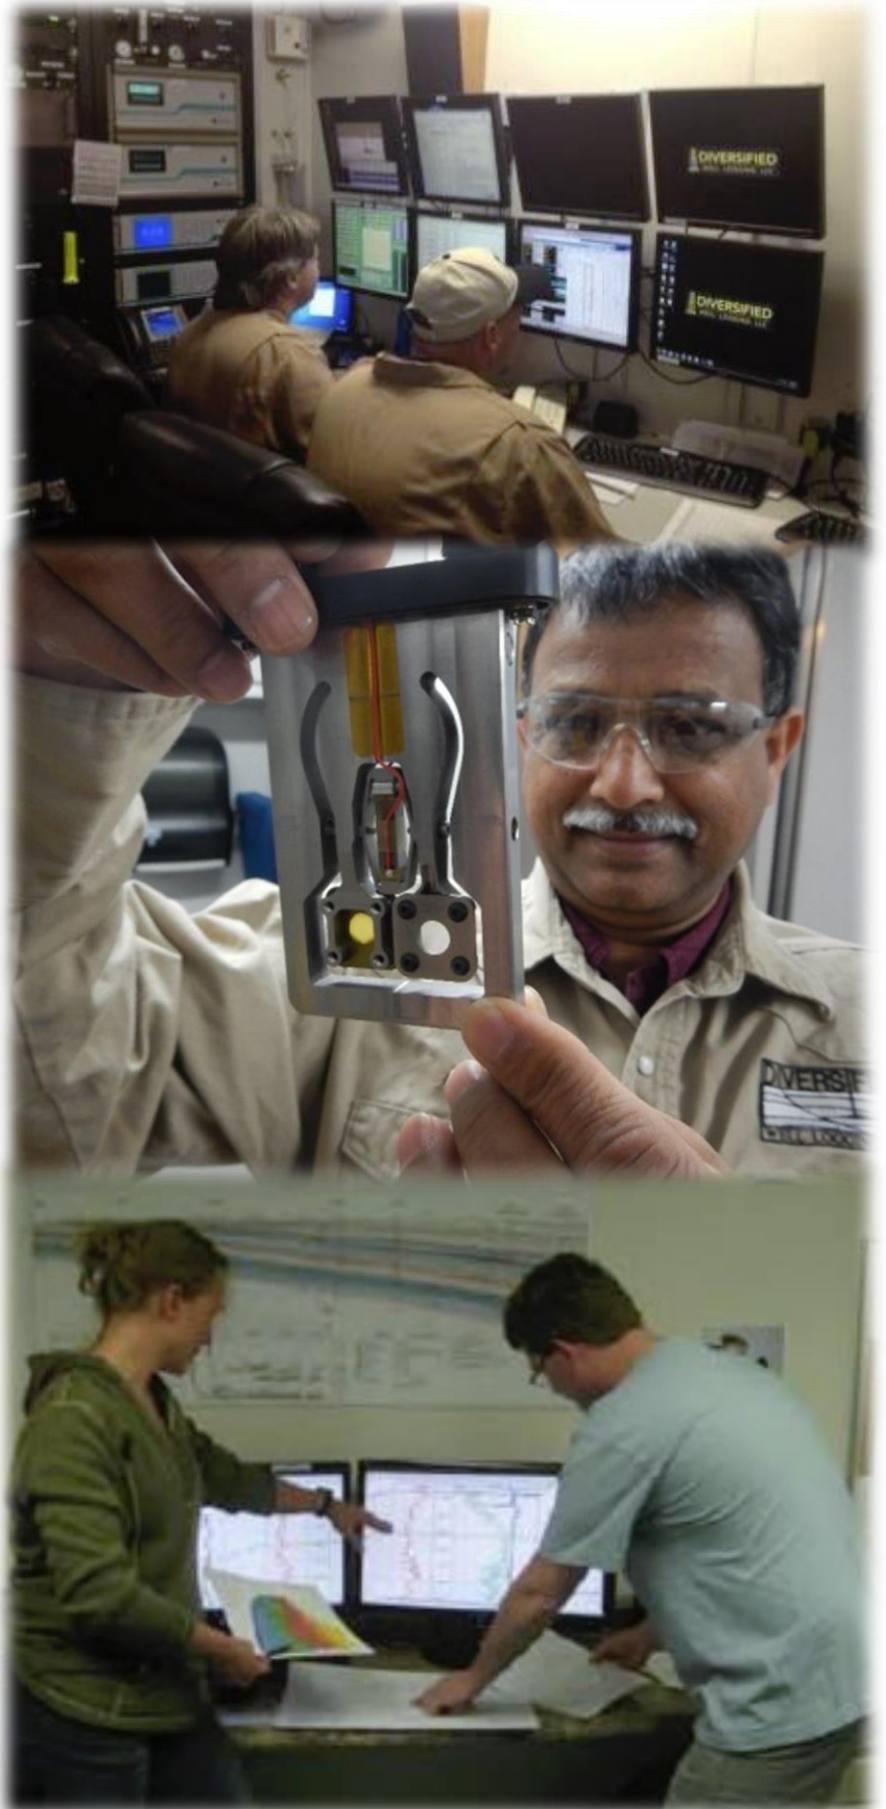

We are committed to a workplace that is free from accidents, and drugs and alcohol. We have the courage to speak up even when doing so is uncomfortable. We act on safety issues when they are observed or reported.

Focused on providing QUALITY services:

Our goal is to do it right the first time, every time. We achieve this through being process-focused. We define how we will work and we follow the procedures and plans.

We are a LEARNING organization:

DWL always strives to provide a quality product. We want to do it right the first time, every time. We know, however, that we work in a complex environment, and that incidents can, and do occur. It's what we do when incidents occur that will differentiate who we are as a company and as individuals. Incidents that happen locally are communicated and we learn company wide.

Exceeding Customer Expectations
